

SMALLTALK MODEL SUPPLIES TRADING ONLINE AS **GRUMPY'S BAZAAR**

KITS FROM THE USA

We need to finalise our order to Modelroundup in the USA (they have a couple of cool new releases). If you want us to add anything to our order for you, let us know ASAP. As a rough guide, take the dollar price and multiply by 25 to get the price that you will pay in rands.

Check their stock on:

C1 MODELS TRANSKITS

We have a small supply of C1 Transkits available, namely the Hakatora Pickup, the Beetle Panel Van and the Golf Caddy (which is particularly cool). You can find them on our Website under "New Arrivals".

NEW ARRIVALS

We have tons of exciting new stuff on the shelf - and two more consignments arriving soon. See it all under "New Arrivals" and "Landing Soon" on our website:

RESERVED STOCK

We are sitting with reserved stock of over R20 000, where modellers have asked us to import goodies for them and the stock has now arrived.

If you have anything lying here, we will contact you for payment shortly.

If you would like to contact Grumpy's Bazaar for orders or anything else, please use the following two methods:

The info regarding this new kit is still under embargo, but a number of dealers have made it public on their websites. We have been allocated a number of kits from the initial production run, so if you would like one, let me know. No pricing yet, but I expect it to be in the R650-R700 range.

The local Revell importer has received new stock. The most notable new models are the 1:16 "Easy Click" Porsche 356B at R1275.00 and the 1:24 Ford GT LeMans 2017 at R695.00.

We will be ordering this week, so if you would like to reserve one, let me know urgently.
