NEW SEATBELT FABRIC IN STOCK

Our new 3mm wide seatbelt fabric is super thin, so it conforms easily to the shape of the seat. Best of all, it sells for less than half the price of our previous material – only R15 per 900mm. Available in Black, Grey, Red and Dark Blue.

Many of you have been asking for the Tamiya XF-1 Flat Black Paint Marker that the local Tamiya importer doesn't list anymore. We've managed to get hold of five, so shout if you would like one. We also have a supply of markers for panel lines:

- GM 301 & GM 302 are felt-tipped with super thin ink that flows into panel lines.
- The GM 101 & GM 102 have very fine points that fit into the panel line.

Do you need masking tape narrower than the usual Tamiya tapes? We received a supply of the excellent AIZU tape in 0.4mm, 0.7mm and 1.0mm. It virtually sold out immediately, but we have 0.4 and 0.7 landing this week and 1.0 next month.

In addition to the Tamiya Aerosols and Acrylics, we also now stock the "LP" range of lacquers - designed to be used with an airbrush. We are expanding the range all the time, and if there is a colour you need, we will order it for you. We'll have the colour chart on the site shortly.

Here is an alternative to those hobby knife blades that cost a fortune and are blunt in no time at all. We stock No. 11 surgical scalpel blades. They are super sharp and last well. They fit into some modelling knife handles, but if you want the surgical handle to go with it, we stock those as well... both at excellent prices!
