ARRIVING SOON

TAM 24351 R580.00

The new Tamiya TOYOTA GR SUPRA lands shortly and is coming in at a very reasonable price (R580.00 before discount). We've had one in our hands and it is a nice kit. I particularly like the way that they have done the wheels. Most of our stock was pre-ordered, but we still have a few available.

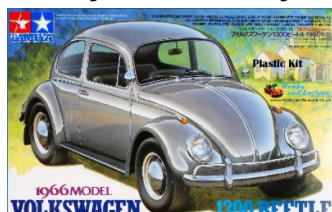

**CARBON VERSION
TAM14136 R675.00**

Also arriving within the next week or so is the Carbon Version of the KAWASAKI H2 and the 2019 version of the TOYOTA TS050 HYBRID.

Finally from Tamiya, these old favourites will be back – after being out of stock for a while.

REVELL LAND ROVER SERIES III 109

REVAG 07047 R765.00

We recently brought in six of these full-detail kits and they sold out immediately. We are now taking orders for a second delivery, so let us know urgently if you would like one. The first consignment arrived by courier - so they were fairly expensive, selling at R725.00 after discount. We are trying to drive the price down a bit on the second order, but no promises yet.

Receiving international parcels through the Post Office has now become a joke. We have two boxes lying somewhere in the system for weeks, and not even my usual contact in the Post Office can get them moving again! As a result, we have appointed forwarding agents to receive our boxes in the countries of origin and then courier them to South Africa. Delivery time is now down to about 10 days, and prices shouldn't be affected much.

OLD FAVORITES BACK AGAIN

We have managed to find and import a very small stock of these old favourites from now defunct manufacturers. There are all top-quality kits and are brand new (they don't come from someone's collection, but from a model wholesaler).
